

The Dance Center of Danvers
Returning to Dance
COVID – 19 Release

We ask that if any student or a member of the family has had any of the symptoms listed or have traveled outside of the US; that they not return to dance until they have self-quarantined for 14 days or received a negative COVID – 19 test result.

- Direct contact with someone who has either a suspected or lab-confirmed case of COVID-19 in the past 14 days.
- In the last 48 hours have you experienced any of the following symptoms?
- Fever of 100.5 (38c) or above, or possible fever symptoms like alternating shivering and sweating * Cough * Trouble breathing, shortness of breath or severe wheezing * Chills * Muscle aches * Sore throat * Diarrhea * Loss of smell or taste, loss or change in taste *unexplained rash

Risk of COVID-19 transmission in a dance studio setting:

My signature below indicates that I understand the COVID-19 virus is a highly contagious disease and has a long incubation period and determining who is infected by COVID-19 is challenging and complicated. I understand that my child can wear a protective mask over their mouth to prevent infection during classes; I understand that there is an increased risk of contracting the virus by entering public places such as dance studios; I also understand that I can help reduce my risk b y following standard safety precautions as recommended by the CDC and; Lastly, I understand that even if I follow all recommended safety precautions there is an inherent risk of contracting COVID-19 from any public space I chose to enter.

I will not hold The Dance Center of Danvers or any DCD staff liable for any possible risks. My child/family member or anyone entering the studio will monitor their health and abide by the provided list of COVID Safe Return guidelines.
